

The Acorn Card Terms, Conditions and Benefits

Friends club benefits are meant as a promotional enticement and as a 'thank you' for support; they are not in anyway intended to be contractual on either side and as such may be withdrawn by management without notice at any time. However if management intend to withdraw the overall programme, 30 days notice will be given to all members.

The discount is given off total food expenditure on a single bill and for a single table only. In other words it is not intended that a member could extend his discount to other tables of acquaintances dining at the same time.

The card and cardholder must be present in order to obtain any discounts.

The card discount may not be used with other promotional menus or offers.

The discount is not applicable against promotional menus or where another promotional voucher is being used – e.g a two for one voucher or free extra course. The discount is not available during December unless by specific promotional invitation during the period.
